

Customer Review of Photiques Wedding Photography

best kept secret in photography

By: Louise S. (10/17/08)

Katrina Coomer did the photography for my wedding early this year. The portraits of my husband and I are absolutely breathtaking. She was very creative and fun to work with for the groomsmen photos and the classic beauty she captured in my bridesmaids have received rave reviews from all. I would recommend Katrina to anyone who wants true artistic beauty in their wedding album.

Just a few weeks ago I asked Katrina to come to my office to do some professional headshots for our non-profit organization. Just as I expected, the photos were professional and captured our board of directors in a "fun" light, when I didn't think that was possible. :) Once again, I would recommend Katrina to anyone needing artistic professional photography. Thank you Katrina!.....
